

# Immunoassay Buffers

Our buffers are manufactured to duplicate the buffers used daily at Bethyl Laboratories while performing the high-quality antibody validation work that is associated with our brand. Intended for use across a series of immunoassays such as western blot, immunoprecipitation, cell lysis, immunohistochemistry, and multiplex imaging, these buffers will help our antibodies reach their fullest potential in your hands.

Buffer	Catalog No.	Price	Applications
RIPA Lysis Buffer	C-11868F-100ml	\$80.00	IP, WB
NETN Lysis Buffer	C-11869F-100ml	\$87.50	IP, WB
10mM Citrate Buffer pH 6.0	C-11870F-1L	\$200.00	IHC, ICC, mIF
10X Tris-EDTA Buffer pH 9.0	C-11930F-500ml	\$200.00	IHC, ICC, mIF
10X TBS-Tween	C-11931F-1L	\$186.00	IP, WB, IHC, ELISA
10X TBS	C-11932F-1L	\$172.00	IP, WB, IHC, ELISA

Optimize your immunoassays by using Bethyl buffers:
