

ACCELERATE YOUR RESEARCH WITH OUR CUSTOM SERVICES

CUSTOM SYNTHESIS

- Peptide Synthesis
- Peptide-Oligo Conjugate Synthesis
- DNA Oligo / Primer Synthesis
- Antibody Generation

ANALYTICAL SERVICES

- Amino Acid Analysis
- N-terminal Protein Sequencing
- Intact Mass Spectrometry
- Peptide Fingerprinting
- HPLC

PRODUCTS

- Peptide Synthesis Reagents
- **Catalogue Peptides:** Cell-Penetrating Peptides |
Histone Peptides | Virus Derived Peptides |
Neuroscience Peptides and more.

Products are for Research Use Only – Not for therapeutic or diagnostic purposes

PEPTIDE SYNTHESIS

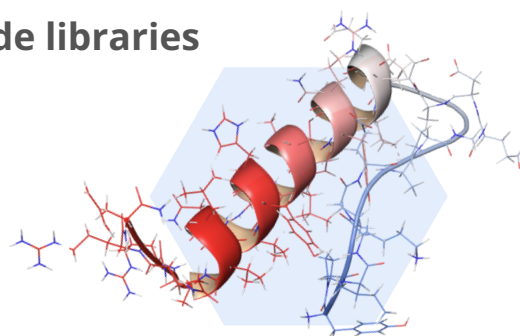

1 mg to
multigram
amounts

Purity
crude to
>95%

QC with
HPLC and
mass spec

SYNTHESIS OPTIONS

- Linear and branched peptides
- D-amino acids and analogues
- Biotin, fatty acids, PEG, farnesyl and other tags
- Fluorescent and dyes peptides
- Cyclic peptides
- Stapled peptides
- Isotopically labelled peptides
- Phosphorylated peptides
- DNA peptide conjugates
- Peptide antigens for antibody generation
- Peptide microarrays
- Peptide libraries

ADDITIONAL SERVICES

**Amino Acid
Analysis**

**Protein
Sequencing**

**Antibody
Generation**

Our laboratory is **ISO 9001:2015** certified, with **ISO 17025:2017** accreditation by UKAS (Testing Laboratory No. 2370) for amino acid analysis and protein sequencing, ensuring the highest quality and reliability in our services.
